averages				
site				127.4
check	*Dekalb*	*DKC68-35 VT2P*	*118*	135.0

Hybrid yields at all locations were averaged, ranked and listed overall in descending order (e.g. 1 being the highest and 21 being the lowest). Hybrids at each individual location were also ranked. A common check (e.g. Dekalb DKC68-35VT2P) was utilized at each location. Dry yields are reported at 15.5% moisture for No. 2 corn grain

RM=Relative Maturity

County	Washington
Town	Roper
Agent	Jalynne Ward
Cooperator	Kendrick's Creek Farms
Irrigation Level	Dryland
Planting Date	4/21/26
Soil Type	Conetoe, Bojac, Altavista
Tillage Type	Strip-till
Previous Crop	Corn
Row Spacing (in)	36
Planting Population (seed/ac)	26,000
Harvest Date	9/10/26
Rainfall (in)
